

WHY CAN'T I COME IN WITH MY PET?

CURBSIDE CHECK-IN AND OTHER COVID-19 PROTOCOLS

ALTHOUGH THE VACCINE IS BEING DISTRIBUTED, COVID-19 CASES IN MINNESOTA ARE AT AN ALL-TIME HIGH, AND SOCIAL DISTANCING MEASURES ARE NEEDED TO HELP REDUCE THE SPREAD.

We Understand That You Would Like to be With Your Pet in the Examination Room

We enjoy having you there too. It's much easier for us to talk to you directly about your pet's health. However, right now it is highly recommended by the Minnesota Board of Animal Health and Minnesota Department of Health that we continue curbside intake and pickup of animals wherever practical to minimize the number of clients in waiting areas and exam rooms.* Modified social distancing measures will also be implemented as clinics slowly reopen.

Although that creates a lot of extra work for our staff, we are committed to complying with these safety guidelines during the COVID-19 crisis, to protect our clients' health and safety.

**Exceptions can be made in situations like euthanasia*

We Are All in This Together

We have have seen an increase in patients and are in need of your patience and understanding during these unprecedented times. Please book your visits out in advance and be understanding of implemented safety measures.

We don't get to see you like we used to. But let's work together to make your visit as easy as possible, using curbside visit protocols and social distancing best practices.
